

INDIGENOUS LAND SITES IN BRAZIL

PROJECT 01 -
LEDE PROGRAM
CAROLINE SOUZA

PITCH PART

The Brazilian Congress approved this week a new bill to change the process of approving/giving new indigenous territories

Bolsonaro said that there are many land for fewer indigenous people

Since Bolsonaro became Brazil's president there are many more conflicts between miners, loggers to take over sites

PITCH PART

SOME OF MY HYPOTHESIS :

How many land are given for indigenous people? And where are they?

Since Brazil's Constitution, which president endorsed more territory for native people?

Are there different types of territory? In which way they are different?

WHERE THE DATA CAME FROM?

I looked for the data from governamental websites

And I also looked for NGO who are related to this topic and found some data

SHP.FILES

CSV.FILES

METHODOLOGY

With the shape files I decided to make some maps to show the location of each site

With the data that came in csv files, first I opened on Google Spreadsheets and tryied to open on Jupyter Notebook also

With the data that came in csv files, first I opened on Google Spreadsheets and tryied to open on Jupyter Notebook also

VISUALIZATION

With the shape files I decided to make some maps to show the location of each site

And also used some bar charts

FINAL MAPS

TRADITIONALLY OCCUPIED LANDS
